

## Coil spring clamp 355mm, 2pcs

### Opis Produktu

Spring pullers are indispensable in professional service of the chassis. Suitable for all types of springs in McPherson struts and independent springs. Pullers work with a 1/2" ratchet. They have a fine thread, which makes it easier to work under spring load. The work is safe due to specially profiled, two-armed handles.

### Charakterystyka

- designed for workshops and services
- for dismantling suspension springs
- double and profiled handles
- forged
- trapezoidal threaded screw
- propeller size 21 mm
- knobs 1/2" possible
- operating range 355 mm.
