

## PRODUCT INFORMATION SHEET

# Lithium jump starter 400A with 10W wireless charger

### Product description

A jump starter with a current of 400A, which can be temporarily increased to 800A, is a reliable solution for emergency situations related to battery of your vehicle. The battery, built on lithium-polymer technology, guarantees long lifetime and safe use of the device. The display allows for the battery charge status checking. Additionally, the jump starter is equipped with a flashlight with three functions - continuous light, flashing light and SOS light, which may be extremely useful in the event of malfunction after dark. It also has 2 USB ports for charging phone or other device. An additional feature of this device is a built-in induction charger, which makes it possible to charge compatible devices without the need to use cables. Inductive charging technology is convenient, simple and allows for quick charging of a Qi-compatible device.

### Characteristics

- inrush current: 400A;
- peak current: 800A;
- built-in 10 W inductive charger;
- efficient lithium-polymer battery;
- battery capacity: 10000 mAh
- 2 USB ports;
- convenient charging via USB-C cable;
- flashlight with 3 functions:
  - continuous light
  - flashing light
  - SOS light
- set includes:
  - jump starter
  - 12 V jumper cables
  - USB-C cable
  - user manual.
