

PRODUCT INFORMATION SHEET

Carbide-tipped core drill bits for concrete

Product description

A carbide-tipped core drill bits used to drill holes in concrete. Perfect for drilling holes for flush-mounted junction boxes, electrical system pipes, ventilation pipes, sewerage and water pipes, as well as for drilling and risers. It increases efficiency and saves material.

Characteristics

- body made of high-quality, durable and hardened CrV40 steel;
- teeth made of YG-11C carbide of increased hardness;
- the outer edge of the core drill has a spiral cut for easy core removal;
- packed in a practical reusable plastic tube.
