

KEMNITZ safety shoes LACE SYSTEM S1PS SR FO gray melange/green 41

Opis Produktu

Men's safety half boots conforming to class **S1PS** according to **EN ISO 20345**; High-quality workmanship promotes comfort and convenience. The model features the **LACE SYSTEM** for quick and easy adjustment of the binding and a precise and even fit of the boot. The aluminium toe cap protects the toes from falling objects. Thanks to its non-slip sole, the footwear is perfect for walking on uneven and slippery surfaces. The boots are dedicated to the logistics industry, transport, in the automotive industry, in repair work. They are excellent for use in enclosed spaces (e.g. halls).
