

PRODUCT INFORMATION SHEET

Pressure washer 180 bar

Product description

The durable and efficient pressure washer has been designed to cope with even the "dirtiest" tasks around the house, in the garden, in the workshop, on a construction site or when washing vehicles. It is suitable for cleaning all types of surfaces, including porous ones. State-of-the-art technology allows for a significant reduction in water consumption compared to traditional washing methods. The robust pump casing made of wear and temperature resistant aluminium ensures long-term operation of the device. Copper winding of the motor improves its operational efficiency and extends its durability. Thanks to the combination of high power, high pressure and optimal water flow, this device is irreplaceable in every household. The powerful engine ensures high work efficiency, enabling quick and effective removal of dirt from various surfaces. High water pressure enables deep and effective cleaning of terraces, pavements, facades, and more vulnerable surfaces using appropriate tips. High water flow ensures optimal washing efficiency, allowing for quick and even removal of dirt. Thanks to the high waterproof rating of IPX5, the device is protected against moisture ingress under normal operating conditions. A wide set of accessories allows you to use the device comprehensively for various tasks, from washing a car to cleaning paving stones. Thanks to the integrated storage compartment, the device allows you to keep the numerous washer accessories in order. The compact structure and low weight ensure comfort of use and ease of the device handling and storage. The ergonomic design and easy installation of the accessories make working with the washer pleasant and effective.

Characteristics

Motor power: 2400 W; maximum pressure: 180 bar; water flow: 450 l/h; pump casing material - aluminium; motor winding material - copper; waterproof rating - IPX5; Included additional accessories: 1. trigger gun, 2. lance, 3. high pressure hose 5 m, 4. water filter, 5. detergent container 250 ml, 6. large brush for terraces. 7. 1/2" garden hose connector 8. garden hose reel.
