

Ball nose metal cutter D

Termékleírás

A ball nose cutter with teeth located on the sphere, type D. Designed for machining metals such as: steel, aluminum, cast iron. In addition, it is suitable for working with plastics, ceramic tiles, stone and wood. It is perfect for machining and grinding. It is made of high-quality tungsten carbide, which guarantees its resistance to intensive use. The precisely made edges of the cutters allow quick and easy processing of various materials, which translates into efficiency and accuracy of work and minimizes the risk of damage.

Jellemzők

Type - D; Blade size - 12x11 mm; Mandrel - 6 mm; Rotational speed - 0-19000 RPM; Handle - cylindrical.
