

PRODUCT INFORMATION SHEET

Gas burner with three nozzles

Product description

A robust gas blowtorch for all soldering and burning works. The high-precision nozzle enables spot heating of any desired area, even hard-to-reach. The blowtorch can be used with MAPP, MAP/PRO and Propane gas without any problems. The flame ignition and extinguishing lock provides comfort and safety of maintenance operations, minimising the risk of an accident at work. The set includes interchangeable nozzles, providing: swirl flame, large flame and fine pencil flame, enabling soft and hard soldering, regardless of large or small diameter.

Characteristics

- Blowtorch power - 3,23 kW;
- Max. temperature - 1850° C;
- Gas type - MAPP;
- Mounting hole - 1"/20 UNEF / CGA 600;
- Piezo ignition - yes;
- Safety lock - yes;
- Interchangeable nozzles - 3 (swirl flame, large flame and fine pencil flame).
