

PRODUCT INFORMATION SHEET

Universal wet and dry vacuum cleaner 30L AS

Product description

The workshop vacuum cleaner is also suitable for the construction site, joinery, or industry. It is designed to collect wood and concrete dust, chips, sawdust, small construction pieces, and other waste produced during the processing of wood or other materials. It allows cleaning of dry and wet surfaces. The liquid extraction function makes it possible to collect water effortlessly from e.g. floors of car workshops, etc. It has a built-in socket, allowing it to power corded power tools. It works perfectly with appliances that have a dust extraction system. The vacuum cleaner can also work as a powerful blower, cleaning the workplace. The vacuum cleaner is equipped with an anti-static protection device to prevent sparking. This increases operational safety. The container has space for 20 L bags. The vacuum cleaner is lightweight and handy, making it easy to move and store. The steering wheels allow you to manoeuvre the vacuum cleaner easily, and the handle makes it easy to carry. The vacuum cleaner is equipped with an anti-static tube.

Characteristics

- Type of operation - dry, wet, bagged, bagless; Additional functions - blower;
- Power - 1200 W;
- Max power output - 1500 W;
- Voltage - 230 V;
- Bag capacity - 30 L; Power adjustment yes, 2-stage;
- Power socket for power tools - yes;
- Number of wheels - 4;
- Length of suction hose - m;
- Length of power cord - m;
- Max load of socket - 2000 W;
- Degree of protection - ;
- Weight - kg;
- The set includes: vacuum cleaner; flexible suction hose; anti-static tube - 2 m; narrow nozzle; wide nozzle; paper bags - 2 pieces; foam filter - 1 piece.
