

PRODUCT INFORMATION SHEET

Workbench

Product description

The multifunctional folding workbench with mounting holes in the bamboo top provides versatility related to the work to be carried out. 5-level height adjustment makes it suitable for users of all heights and preferences. Special connectors allow mounting of two tables together, so that a larger working area can be achieved. The use of 2 tables as trestles/chocks, and the use of clamps at the same time, allows stable machining of long workpieces. Retaining pins, allow workpieces to be securely clamped. Capacity of up to 450 kg, makes the table suitable for really heavy tasks. The bamboo top is durable and moisture-resistant. Sturdy steel used in the construction of the table, guarantee the robustness and durability of the tool. Foldable design gives a compact size that makes it easy to store and transport. Small dimensions when unfolded make it suitable for use in tight spaces and corners of rooms. The angular measurement printed on the tabletop facilitates work when cutting and assembling workpieces.

Characteristics

- Size: (wd., lg., ht.) 700 x 650 x 915 mm.
- Maximum load capacity: 450kg.
- Material: steel and bamboo.
- Product includes: 2 x F-clamps, stop pins, connector.
