

PRODUCT INFORMATION SHEET

Mitre saw table

Product description

The multifunctional folding workbench with mounting holes in the MDF top and 3 bins provides versatility and organisation for the workplace. Pots and holes in the side struts make screws, bolts, small tools, etc. easily accessible. 6-level height adjustment makes it suitable for users of all heights and preferences. Special connectors allow mounting of two tables together, so that a larger working area can be achieved. The use of 2 tables as trestles/chocks, and the use of clamps at the same time, allows stable machining of long workpieces. Side hooks allow long scantlings to be hung from two tables. Retaining pins, allow workpieces to be securely clamped. Capacity of up to 450 kg, makes the table suitable for really heavy tasks. The MDF top is durable and moisture-resistant. Sturdy steel used in the construction of the table, guarantee the robustness and durability of the tool. Foldable design gives a compact size that makes it easy to store and transport. Small dimensions when unfolded make it suitable for use in tight spaces and corners of rooms.

Characteristics

- Size: 845 (W) 598 (L) x 735-885 (H) mm.
- Maximum load capacity: 450kg.
- Material: steel and MDF.
- The product includes: 2 table clamps, stop pins, 3 containers, connector.
