

PRODUCT INFORMATION SHEET

DIEMEL high altitude protective helmet orange uni

Product description

The DIMEL protective helmet with its modern, sporty profile has been designed for demanding users in the construction and industrial sectors. The ABS shell provides mechanical strength and resistance to harsh conditions. The model is equipped with an adjustable ventilation system, an adjustment knob, a comfortable neckline and a 3-point chin strap to guarantee high functionality and safety. With handles and holes for integration with other PPE such as ear muffs or a head torch, the helmet can be adapted for many applications in high-risk environments.

Characteristics

- shell material: ABS plastic - lightweight and robust construction resistant to impacts and flames, tested over a temperature range of -10°C to +50°C;
- compliance with the norm: EN 397:2012 + A1:2012;
- adjustment mechanism: knob on back of helmet - allows quick size adjustment;
- truss: 6-point webbing strap - provides stable seating and wearing comfort;
- 3-point chin strap - with an opening mechanism at a force of 150-250 N in accordance with the standard;
- sweatband: included - promotes comfort during prolonged wear (made of EVA foam, covered with soft mesh fabric);
- ventilation: air vents in the upper shell - effective air circulation, adjustable;
- mounting brackets: for fitting visors, goggles, earmuffs and head torches;
- visor: short - does not limit field of vision;
- protective parameters: - vertical cushioning, - puncture resistance (sharp objects), - protection against molten metal (MM);
- weight: 310g.
